

## **New Regulations Authorized by USTA/Nevada**

**The Nevada District has authorized that a player may participate at more than one NTRP level within the USTA Adult League, in the same local league season. Players who qualify may advance to Section Championships on two teams at different NTRP levels within one division.**

**Note: No special consideration for match scheduling will be given. It is recommended that the player choose a “primary” team.**

**The USTA Super Senior League will be moved to the fall of 2009 instead of playing the league in the spring.**

**The Coman Tie-break will be played at ALL local league matches.**

**Teams advancing to the USTA/Nevada District Championships will be charged a \$50 team registration fee which will need to be received at the USTA/Nevada tennis office prior to the team being placed in the play-off schedule. If the team fee is not received by a set date, the second place team will be asked to participate in the Championship.**
